A Wealth of  
**EXPERIENCE**  
To Heal and  
**HELP YOU**

## FACULTY OF MEDICINE ( MBBS )

Training under the specialty program General Medicine is carried out in full-time education. The normative term for mastering the basic educational program General medicine for full-time education is 6 years including internship (Total 12 semester ).

The complexity of mastering the specialty by the students of the specialty General medicine for the entire period of study is 360 credit units (1 credit unit corresponds to 36 academic hours). The volume of basic educational training program in fulltime education, implemented for one academic year is 60 credits x units.

Simulation learning technologies are also used in the educational process, starting from the 1st year. Practical classes for a number of specialized disciplines are organized at the Accreditation and Simulation Center. At clinical departments, dummies and phantoms, imitators of sounds (noises), visual information materials, devices, medical equipment are presented.

Bringing  
**LIFE**  
To your  
**SMILE**

## FACULTY OF DENTISTRY

The Faculty of Dentistry of the Sverdlovsk State Medical Institute was opened on August 6, 1976 (order of the State Committee of the Russian Federation for Higher Education).

Students and doctors are trained in well-equipped classrooms, treatment rooms, phantom classrooms, on new diagnostic equipment using modern technologies and the experience of both Russian and foreign colleagues from Germany, France, Holland, the USA, Canada, and China. All classrooms are equipped with a set of equipment for multimedia presentations, demonstrations of educational films. A single network with Internet access allows real-time remote teleconferences with a demonstration of clinical admission of patients. Students of the Faculty of Dentistry actively participate in research work, in extracurricular activities, winning prizes at competitions, festivals of Russian and international level. Students regularly undergo international internships in countries near and far abroad.

The demand for graduates of the Faculty of Dentistry USMU is 100%. Graduates work in Yekaterinburg, the Ural region, Moscow, St. Petersburg, countries of the near and far abroad in dental institutions of various forms of ownership: both private and public. We have repeatedly received positive feedback from employers. In the city of Yekaterinburg and the Sverdlovsk region, more than 80% of dentists are graduates of the Faculty of Dentistry of the Ural State Medical University, who work as dentists, heads of departments, chief doctors. Most of the employees of the profile departments of USMU are also graduates of the faculty; many of them are candidates, doctors of medical sciences.
